- Data Analysis (6 months): Python, Excel, SQL, Google Sheet, Optimizing solutions, collaborating with teams, contributing to documentation.
- Visualization (6 months): Power BI, Tableau, Excel, SQL

## EXPERIENCE

### **Analyst**

Oct 2021 - Present

Accenture

- Collaborated with a team to understand business requirements and define optimized solutions.
- Played a key role in data center migration, Control-M end-to-end migration, and MSSQL migration.
- Created access documents, application runbooks, and migration documentation.
- Led the migration of ASP.NET to ASP.NET Core while meticulously documenting the process.
- Contributed to the documentation of VB.NET project workflows and implemented Excel lookup functionality.
- Involved in non-coding tasks, including NFR (Non-Functional Requirements) and runbook development.
- Analyzed legacy code and logs to design and implement corresponding modules in the new system.
- Actively participated in daily stand-up meetings for task updates and new task assignments.

### **Junior Robotics Specialist**

May 2021 - Oct 2021

Centelli India LLP

- Worked on monitoring UiPath Orchestrator bots and scheduling jobs.
- Analyzed job failures and implemented solutions to resolve issues.
- Successfully supported projects by contributing expertise in Excel, UI, web, and email automation.
- Proficient in elastic log monitoring for enhanced system performance.
- Collaborated effectively with the team to ensure project success.

## EDUCATION

### **B.Tech (Computer Science) - Computer Science**

Aug 2017 - Sep 2021

Kanpur Institute of Technology (AKTU), Kanpur

## SKILLS

**Intermediate in:** Microsoft Excel, Analytical and Problem-Solving Skill, Collaborative and Independent Work, Deadline Management Fast-Paced Env, RPA, UiPath, Microsoft Office Suite

**Basic in:** Data Manipulation, Analysis, Data Visualization, BI Tools: PowerBI, Tableau, Python
